INSTITUTE OF ENGINEERING AND TECHNOLOGY

(Approved by AICTE & Affiliated to Anna University)

257/1, Bangalore – Chennai High Way, Melvisharam, Ranipet – 632 509

Career guidance policy

Career guidance for engineering students helps them make informed decisions about their careers. It involves assessments, counseling, and mentorship to help students identify their interests and aptitudes, and find the right specialization and career path.

- **Self-assessment**

Students learn about their interests, values, abilities, and personal traits

- **Psychometric assessment**

Students take scientifically designed tests to evaluate their interests and aptitudes

- **Counseling**

Students work with counselors to develop strategies for success, such as networking, internships, and building expertise

- **Mentorship**

Students work with mentors to gain guidance and direction

- **Exploration**

Students explore different career options, job descriptions, and education and training requirements

- **Decision-making**

Students use the information they've gathered to make informed decisions about their career path

- **Practical experience**

Students gain practical experience through internships, co-op programs, volunteer work, and summer employment .

- Career guidance helps students make choices that maximize their job satisfaction
- Career guidance helps students develop a career plan to achieve their goals
- Career guidance helps students explore and identify the most suitable careers for them
